명세서

|                |                                                |
|----------------|------------------------------------------------|
| 제품 모델          | ATA6823C-PHQW                                  |
| 제조사            | Micrel / Microchip Technology                  |
| 기술             | IC MOTOR CONTROLLER PAR 32QFN                  |
| 범주             | 집적 회로 (IC) > 마이크-모터 드라이버, 컨트롤러                 |
| 부품 상태          | 15041 pcs Stock                                |
| 전압 - 공급        | 6.5 V ~ 22.7 V                                 |
| 전압 - 부하        | -                                              |
| 과학 기술          | Power MOSFET                                   |
| 제조업체 장치 패키지    | 32-QFN (7x7)                                   |
| 단계 해상도         | -                                              |
| 연속             | -                                              |
| 포장             | Tape & Reel (TR)                               |
| 패키지 / 케이스      | 32-VQFN Exposed Pad                            |
| 출력 구성          | Pre-Driver - Half Bridge (2)                   |
| 작동 온도          | -40°C ~ 125°C (TA)                             |
| 실장 형           | Surface Mount                                  |
| 모터 유형 - 스텝퍼    | -                                              |
| 모터 유형 - AC, DC | Brushed DC                                     |
| 인터페이스          | LIN, PWM                                       |
| 기능             | Controller - Commutation, Direction Management |
| 전류 - 출력        | -                                              |
| 응용 프로그램        | General Purpose                                |
